## APPLICATIONS

The TOSHIBA B-852 printer with exceptional performance and the ultimate in networking tools with impressive capacity to adapt to various working environments.

- > Manufacturing
  - to print carton labels, rating labels, picking labels, parts labels etc.
- > Transport and Logistics
  - to print shipping/receiving labels, address labels, pallet labels etc.
- > All industries which need to process and print large label sizes at high speed
  - e.g. Automotive, Heavy Industry, Steel Industry, Paper Industry, Forestry, Chemical Industry, Pharmaceutical Industry, Textile Industry, Retail Distribution

### Speed and Functionality

Utilising field-proven CPU technology from Toshiba, the B-852 offers high-speed printing and enhanced processing via an extensive choice of interfaces – including USB 2.0 and internal LAN. The options of serial and LAN interfaces provide additional flexibility and choice, making the B-852 adaptable to the widest variety of environments and applications.

## POWERFUL PRINTING

### High Print Quality

The B-852 300 dpi, 216 mm wide printhead facilitates rapid printing of high-quality, large format compliance labels.

### Future Proofing

For future proofing, the B-852 printer is compatible with legacy systems. With the powerful Basic Command Interpreter (BCI) programme, incoming data can be manipulated to generate the correct label formats. The BCI can also communicate with external devices allowing the easy integration of other technology systems.

### SNMP Tools

The B-852 comes with a free Network Management Suite that allows the user to:

- > Manage all the Toshiba printers attached to the network through their IP address.
- > Display system information and firmware versions, allowing firmware to be updated across the network simultaneously.
- > View the status of each individual printer connected to the network in real time with real-time alerts (including viewing web pages).
- > View a graphical display of the alerted error with the instructions necessary to resolve it, even emailing the service call centre number when needed.

### Lower Cost of Ownership

Manufactured at Toshiba's own facilities this printer provides the assurance of complete reliability and quality of key components, which is essential for low overall cost of ownership (TCO). To lower the TCO even further the B-852 has large internal memory as standard with no requirement for additional memory.
